

Piano di Studio, Dottorato in Fisica XXVII Ciclo (anno 2012)

Each student is required to follow three basic courses chosen from Theoretical Physics, Condensed Matter Physics, High-Energy Experimental Physics and Astrophysics/Cosmology, each of 40 hrs duration. Furthermore, she or he must choose a group of extra lectures/courses/reading class of total (at least) 40 hrs of the field of her or his own choice. Any of these courses can be substituted by courses held at Scuola Normale Superiore, or by lectures of "Laurea Magistrale" (Master Course in Physics) of the Dept of Physics. Each student should discuss the choice with the Commission formed by Proff. M.Tonelli, A.Strumia, M.Sozzi and S.Shore and her (his) future Supervisor -- in case she (he) has already chosen -- and return the present form by 28/02/2012

The choices of courses can be found at

<http://www.df.unipi.it/dida/dottorat/hp.html> (for Ph D courses held at the Dep. Phys);

<http://www.df.unipi.it/cms/it/content/didatticanuova/1112/corsi-laurea-magistrale> (for courses of Laurea Magistrale - Master Course);

<http://www.sns.it/didattica/scienze/perfezionamento/fisicaperfe/> (for courses held at SNS)
